DRUG TESTING**

**POLICY DIGEST**

Primary Monitoring Unit: Human Resources  
Initially Issued: June 4, 2010  
Last Revised: May 17, 2016 (format updated March 18, 2022)

**I. INTRODUCTION AND PURPOSE**

The employees of the state of Louisiana are among the state’s most valuable resources, and the physical and mental well-being of these employees is necessary for them to properly carry out their responsibilities. Substance abuse causes serious adverse consequences to users, impacting their productivity, health and safety, dependents, and co-workers, as well as the general public.

The State of Louisiana and LSU Eunice has a long-standing commitment to working toward a drug-free workplace. In order to curb the use of illegal drugs by employees of the state of Louisiana, the Louisiana legislature enacted laws which provide for the creation and implementation of drug testing programs for state employees. Further, the Governor of the State of Louisiana issued Executive Order 98-38 for the promulgation by executive agencies of written policies mandating drug testing of employees, appointees, prospective employees and prospective appointees, pursuant to Louisiana [Revised Statute 49:1001](#), et seq.

LSU Eunice fully supports these efforts and is committed to a drug-free workplace.

**II. DEFINITIONS**

**Controlled Substance** – a drug, chemical substance or immediate precursor in Schedules I through V of R.S. 40:964 or Section 202 of the Controlled Substances Act (21 U.S.C. 812).

**Designer (Synthetic) Drugs** – those chemical substances that are made in clandestine laboratories where the molecular structure of both legal and illegal drugs is altered to create a drug that is not explicitly banned by federal law.

**Illegal Drug** – any drug which is not legally obtainable or which has not been legally obtained, to include prescribed drugs not legally obtained and prescribed drugs not being used for prescribed purposes or being used by one other than the person for whom prescribed.

**Reasonable Suspicion** – belief based upon reliable, objective and documented facts derived from direct observation of specific physical, behavioral, odorous presence, or performance indicators and being of sufficient import and quantity to lead a prudent person to suspect that an employee is in violation of this policy.

41 **Safety-sensitive or Security-Sensitive position** – a position determined by the Appointing  
42 Authority to contain duties of such nature that the compelling State interest to keep the  
43 incumbent drug-free outweighs the employee’s privacy interests. A list of such positions within  
44 LSU Eunice is contained in the next section. The list was determined with consideration of  
45 statutory law, jurisprudence, the practices of this agency and the following examples of safety-  
46 sensitive and security-sensitive positions:

59 The symptoms or influence are not confined to that consistent with misbehavior, nor to obvious  
60 impairment of physical or mental ability, such as slurred speech or difficulty in maintaining  
61 balance. A determination of influence can be established by a professional opinion or a  
62 scientifically valid test.

63 **Workplace** – any location on agency property including all property, offices and facilities  
64 (including all vehicles and equipment) whether owned, leased or otherwise used by the agency
