INTRODUCTION

Files of the Eunice News, formerly the Eunice New Era, are complete since 1924. Except for a few scattered issues, no files of this newspaper are available before that year. The few early issues that have been located are included in the index.

Indexing follows the spelling of the names as they appear in the newspaper accounts. Correction and verification of questionable spellings has proven impossible. Where possible, married women have been indexed under both their maiden and married names followed by the husbands' names in parentheses. Married names are in capitals; maiden names are in upper and lower case letters.

Where the newspapers were divided into numbered sections, section numbers have been included. The designation "OPL" indicates the "Opelousas Section" which was published for a brief period in the 1920's.

Files of the Eunice News and the Eunice New Era are available at the LeDoux Library, Louisiana State University at Eunice. The text of individual notices will be provided upon request.
