AGRI-1001 (1), Intro into Ag (Choose one training pathway)

- Cattle
- Farming/Aquaculture
- Drone Certification
- Crop Advisor Certification
- I do not want to pursue a college degree

Apprenticeships/Internships

- I am interested in apprenticeship opportunities (Available to Cattle or Farming/Aquaculture pathways only)
- I am interested in internship opportunities
- I am not interested in any work opportunities

Training will commence with a Program Orientation and enrollment into LSUE's Introduction to Agriculture (AGRI-1001). While enrolled, participants can choose one training pathway to pursue (listed above). Participants can also earn their Industrial Based Credentials (IBC) through the Lean Six Sigma online training. For non-college participants, the program will provide a job-readiness workshop for those that seek employment.
